GISA WRESTLING WEIGHT MANAGEMENT PROGRAM

This booklet contains the protocols to be used to assess all wrestlers in your program. Participation in the weight management program is mandatory and results are binding. All wrestling coaches, athletic administrators and/or principals should take time to review the adopted regulations and supporting forms. Failure of schools to comply with the guidelines of this program may result in sanctions and/or fines.

Note: The Georgia Independent School Association does not advocate that a wrestlers' established minimum weight is the athletes' best weight, but simply the lowest weight at which the athlete will be allowed to compete.

GISA wrestlers will follow a weight control program which is based on the National Federation of State High School Associations (NFHS) Rule 1-5. This program includes:

- a) Establishment of a minimum weight class through hydration testing & body fat assessment
- b) a monitored weekly weight loss plan

NEW/POINTS OF EMPHASIS

1. Prior to each weigh-in, coaches must present a properly dated weigh-in roster (created no more than 3 days prior to the event) to the head official. The head official will verify that the system-generated weigh in date matches the date of the competition. If the weigh in date does not match the date of the competition, the coach must go to www.TrackWrestling.com and generate the correct form prior to athlete's weighing in. After the officials conduct skin checks, they must sign the weigh in form. A copy of the signed form shall be provided to the head official.
2. Schools must have all scales used for weigh-ins certified annually. [The GA Dept. of Agriculture; Fuels & Measures; 404-656-3605](#) will certify scales free. Schools are encouraged to conduct a certification date where as many as possible get their scale certified at the same time, minimizing the amount of travel by Dept. of Agriculture personnel.
3. Schools must enter weigh-in results in the OPC within 48 hours of each weigh-in or before the next scheduled contest (whichever comes first). The system will not allow an athlete to be listed on the weigh-in form or the next weigh-in form to be printed until all previous weigh-ins are entered into the system & committed.
4. Once a weigh-in is committed, it is locked and no further editing by the coach can be done. Any editing must be approved and entered by the GISA wrestling administrator.
5. TrackWrestling allows coaches to view the weigh-ins of athletes from other schools. See the FAQ's on the TrackWrestling website or the instructions at the end of this booklet for details on how to access.
6. The system will automatically adjust for the weight allowance given for a consecutive day of competition situation (the original weight descent plan may/may not change).
7. Schools which compete on the day prior to a post-season tournament shall not receive a consecutive day weight allowance at the post-season tournament.
8. Schools have until **December 31** to enter their competition schedule; no entries can be made after this date without the written approval of the GISA.
9. Use Form 4 when getting a simple "Medical Clearance" for wrestlers at or below 7% or 12% body fat. Form 4 does not need to be notarized and may be emailed/faxed to the GISA.
10. Use Form 5 for a weight class Appeal for any wrestler. This form must be notarized and must be mailed (with proper form of payment) to the GISA.
11. There have been changes made to forms; please use current year forms only.
12. Initial Assessment period: **October 12 through December 14.**
13. Weight descent plan ending date: **January 25, 2020**

GENERAL GUIDELINES

1. GISA is in partnership with the National Wrestling Coaches Association (NWCA) and TrackWrestling and will utilize the Optimal Performance Calculator (OPC) as the mechanism for establishing the lowest allowable weight for each wrestler and as the data reporting and retrieval site for all member schools fielding wrestling teams. Schools will be assigned access codes by the NWCA/TrackWrestling in order to complete the reports and to view all athlete & school information.
2. All GISA schools with wrestling programs MUST register for the OPC (see form above or the memo on the wrestling page of the GISA website).
3. Instructions for proper use of the NWCA/TrackWrestling OPC are available on the GISA wrestling home page or at the back of this booklet (Attachment 2).
4. Each school accepts the responsibility of using the OPC correctly and must have at least one coach successfully complete the online Weight Management Training seminar. The school is subject to penalties and/or fines if the school does not follow the established guidelines.
5. All GISA wrestlers who will wrestle varsity or junior varsity will be subject to a hydration test and a body fat analysis prior to the beginning of each competitive season. **NO WRESTLER MAY COMPETE** until they have successfully participated in an initial assessment and their name and data are included in the OPC. All wrestlers, including those coming out late, must have their minimum weight established prior to actual competition.

6. Schools will be assigned to “Regional Assessment Sites” where the evaluations will be conducted. Schools will not be allowed to switch sites or to use a site other than the facility designated by the GISA office. Violation of this or any other component of the Weight Management Program may result in penalties and/or fines.
7. **Schools must schedule their assessment date(s) and time(s) through the assessment coordinator. Schedules are determined and controlled by the assessment site and unscheduled appearances by individuals or teams will result in the person(s) being denied assessment at that time.** The GISA Office will be notified of any variance from this procedure.
8. Fees for testing must be paid to the assessment site at the time of testing.
9. Initial assessment data will be entered by assessment site personnel. Schools will receive a calculation of the predicted 7% / 12% body fat based upon the measurements submitted. Additionally, the program will calculate a 1.5% weekly weight loss figure which will enable the coach and the wrestler to use a progressive weight loss plan for each athlete. The establishment of a lowest allowable wrestling weight based on 7% for males and 12% for females is REQUIRED for all high school wrestlers.

TESTING PROCEDURES

1. Coaches who go to TrackWrestling and import their team roster from the previous year and add the names of newcomers before having athletes tested will be able to see weight descent plans sooner. Assessors will not enter assessment data until the coach has imported the roster.
2. Prior to arrival at the testing site, complete (please print clearly) the top section of the Individual Profile Form (Form 1).
3. Athletes must be dressed in shorts and a t-shirt to participate in the assessment.
 - No sweat clothes or school clothes will be allowed.
 - It is improper for athletes to disrobe further than t-shirts and shorts.

STEP 1: HYDRATION

- It is essential that the importance of proper hydration be stressed to the wrestlers prior to your assessment date (see Attachment 1 for hydration tips).
- A urine specific gravity test will be conducted using a digital fiber optic refractometer. This is a pass/fail assessment and the sample must register a reading of less than or equal to 1.025 g/ml.
- If the athlete presents the assessor with a sample that is cool to the touch, the temperature will be measured. Urine samples must be between 91-99 degrees Fahrenheit to be considered valid. (Most pre-employment tests require the urine to be 96-99 degrees).
- Those athletes failing the hydration test will not be allowed further evaluations that day and must wait at least 48 hours before they can be re-tested. If an athlete fails the hydration test, the \$10 fee is owed and an additional \$10 will be charged for each and every re-test.
- NO DATA WILL BE ENTERED INTO THE WEIGHT MANAGEMENT DATABASE UNTIL THE ATHLETE PASSES ALL PORTIONS OF THE TEST.

STEP 2: MEASUREMENT OF HEIGHT

- Done in bare feet and rounded down to the nearest ½ inch.

STEP 3: BODY COMPOSITION

This assessment must be conducted by the test site. GISA will not accept any body fat evaluation presented by other personnel. Body fat assessments will be conducted using bioelectric impedance (BIA) measurements using the “STANDARD” mode on the Tanita TBF-300WA body composition analyzer, the Body Metrix WR Ultrasound Machine or by skinfold measurement.

In an attempt to insure reliability of the bio-electric impedance assessment:

- ✓ It is recommended that athletes follow the guidelines in Attachment 1.
- ✓ Females should not be tested during their menstrual cycle. Testing should be delayed for at least 3 days afterward.

Notes:

1. If the Tanita scale gives an “Error” message on three (3) consecutive readings or the site does not have a Body Metrix machine, skin fold measurements will be used to determine body fat percentage.
 - a. Only Lange calipers shall be used to measure skin fold thickness (Lohman sites: abdominal, triceps and subscapular)
 - b. Form 2 will be completed by the assessor and data will be sent to the GISA for entry into the OPC.
2. Upon successful completion of all tests, the assessor will enter results into the NWCA/TrackWrestling OPC. The internet calculator will determine the wrestler’s minimum allowable weight and establish a daily weight descent plan including the allowed weight class for competitions. Per NFHS rule 1-5-2, wrestlers may lose a maximum of 1.5% of body weight per week.
3. After the initial entry of wrestlers, the coach may generate an “Alpha Master Roster” and the “Weight Loss Plan” for each wrestler on the team. These items will be used throughout the season for verification of compliance with Weight Management Program guidelines.

ASSESSMENT EXPECTATIONS / NOTES

1. ***It is the school’s responsibility to contact the assessment site and arrange for testing. Schools must cooperate with the test site and schedule assessments according to the sites’ work schedule.***
2. ***Any athlete appearing for assessment without a coach/school representative or without being properly scheduled will be turned away.***
3. A minimum of two (2) adults /coaches are to accompany a team. These persons are present to supervise the athletes and to assist the assessment site personnel with management tasks, if requested to do so.
4. **School personnel shall not be involved in any actual testing activities.**
5. Athletes will be assessed wearing no more/no less than athletic shorts & t-shirts. It is improper for athletes to disrobe further than the shorts & t-shirt clothing requirement. It is strongly recommended that athletes wear shower shoes or other footwear between testing stations.
6. Height and BIA measurements will be taken in bare feet.
7. Proper conduct and deportment of athletes is expected at all times. Assessors have been given authority by the GISA to decline testing an individual or a school group if appropriate behavior is not adhered to throughout the testing process.
8. Athletes attempting to violate or circumvent the assessment process (in any manner) will be denied testing that day. All data collected on this particular athlete will be voided. The athlete may be rescheduled at the convenience of the assessment site. The school will be responsible for all re-testing fees. Once an athlete completes their assessment, no-retests are allowed.
9. Testing sites will be instructed to notify the GISA office of problems in the assessment process. Total cooperation is expected from schools and school staff. Violations could result in penalties and/or fines.

INITIAL TEST PERIOD

1. Assessments may begin on **Saturday, October 12, 2019**. Sites may test on any date they wish through **December 14**. Sites performing Saturday-only assessments should offer at least four (4) of the ten Saturday's during the assessment period. Assessment sites are generally willing/able to accommodate special needs. Check with your assigned assessor (well in advance) for options.
2. The initial assessment period will end on **Saturday, December 12, 2019**. After the start of the second semester, sites may "re-open" for a short period of time--**January 2 to January 11, 2020**. **Saturday, January 11, 2020** is the deadline to establish a certified minimum wrestling weight. No assessments will be conducted after **Saturday, January 11, 2020**.
3. All wrestlers, including those coming out late, must have their minimum wrestling weight established before being allowed to compete.
4. Coaches may have ineligible athletes assessed but these athletes are not allowed to practice. By completing early assessment, even if ineligible at that time, coaches can have students ready to compete when they are eligible to return to the team.
5. GISA schools may begin Wrestling Practice on **Tuesday, October 15, 2019**. The earliest competition date is **Friday, November 8, 2019**. Coaches must make every effort to get the bulk of team assessments completed by the first day of competition.
6. No wrestler may compete until they have participated in an initial assessment and their name and data are included on the school "Alpha Master Roster" generated by the OPC.

LATE TESTING

1. Assessment sites electing to allow schools to test during the late period (**January 2-11, 2020**), may do so at their facility or may choose to go to the school. This is at the discretion of the assessment site, not the school.
2. Some sites close after the initial testing period. If this happens, schools must arrange for their assessor to travel to the school or contact the GISA for assignment to a different testing site. All assessments administered in the late period are subject to the following changes:
 - A flat fee of \$20 per athlete will be assessed.
 - If the assessor travels to the school, round trip mileage will be paid at a rate of \$0.53 per mile (arrangements for the payment of the travel fee must be agreed upon in advance).

COSTS

1. ALL schools MUST join the National Wrestling Coaches Association; annual dues are \$30.00.
2. Charges for the initial assessment may not exceed \$10.00 per athlete. Students who fail the hydration test and who have to be re-scheduled must pay additional fees (\$10.00 each test) until the entire assessment process is complete.
3. All costs incurred for the initial assessment and/or re-testing are the responsibility of the school or parent.
4. There is an increased cost for having athletes tested during the late period. See details above.
5. Weight Appeal fees are sent to the GISA (See Weight Appeal Process below).

MEDICAL CLEARANCE

1. All athletes assessed at or below 7% (male) or 12% (female) must obtain medical clearance before they can compete.
2. The physician clearance (from an MD or DO) is only valid for one season; it expires on March 1st of each year and allows the athlete to compete at a weight no lower than the weight class determined at the time of the assessment.
3. There is no GISA fee for medical clearance.
4. Form 4 must be signed by Physician/Physician Assistant or Registered Nurse Practitioner and a parent; Form 4 does not have to be notarized.
5. Completed forms may be sent to the GISA via email, fax or standard mail.

WEIGHT APPEAL PROCESS (Any athlete)

1. The school may appeal the assessment of any athlete if approved by a licensed physician (MD or DO).
2. The maximum appeal is for one (1) weight class lower than determined by the initial assessment.
3. The Physician Appeal (Form 5) must be signed by a Physician and at least one parent. The signature of the parent must be notarized.
4. The original Form 5 (no copies accepted) and a \$50.00 appeal fee must be mailed to the GISA. The appeal fee must be paid with a money order, school check or booster club check (no personal checks accepted) made payable to the Georgia Independent School Association.
5. If a wrestler competes before an appeal is made or during the time an appeal is pending, the appeal is voided and the athlete must accept the results of the initial assessment.
6. Only one appeal per wrestler per season is allowed.

WEIGHT LOSS PER WEEK

1. Starting on the date of the initial assessment, a season-long weight loss plan with a maximum 1.5% loss per week will be established.
2. This weight loss plan will determine the weight class for which a wrestler is eligible on a given date.
3. If a wrestler weighs in below his projected weight, the weight loss plan will not recalculate and will not allow the wrestler to descend to his minimum weight class any sooner than pre-determined by the initial assessment. Losing weight faster than projected is not an advantage.
4. Wrestlers' weight descent plans will end on **Saturday, January 25, 2020**.

Note: A wrestler who participates/competes at a weight class below the eligible weight class defined by the weight loss plan or before the proper amount of time has passed to achieve the weight class will be disqualified and all bouts will be forfeited. The school is also subject to fines and/or penalties.

WEIGHT RECALCULATION

If a wrestler weighs in above their Projected Weight for a competition, the OPC will use that actual weight and RECALCULATE the individual Weight Loss plan.

Example: Wrestler A has an established minimum weight class of 113 pounds according to his assessment and he is descending down toward this weight. Wrestler A's projected weight for November 3rd is 118.0 but he weighs in at 119.0 and wrestles in the 120-pound class that day. The coach will record his actual weigh-in weight for November 3rd as 119.0 on the Weigh-in form. This is above the Projected Weight on the Individual Weight Loss Plan so wrestler A's Individual Weight Loss Plan will recalculate on November 3rd starting from 119.0 (his actual weigh-in weight) to allow him more time to descend to his Minimum Weight Class within the 1.5% guideline.

CONSECUTIVE DAYS OF COMPETITION

The OPC will adjust so that the consecutive day allowance is taken off the wrestlers' actual weight at weigh-in. The system will not change the original descent plan unless the wrestler weighs in greater than the weight allowance given.

Examples: Wrestler A has a weight loss plan for December 1 which reads 157.5 (eligible for 160) and he is given a one-pound consecutive day allowance.

1. Wrestler A weighs in at 158.5; the system will start his descent plan from 157.5 the following day
2. Wrestler A weighs in at 159.2; the system will re-calculate from 158.2 the following day
3. Wrestler A weighs in at 158.0; the system will only take off 0.5 lb. and he will start at 157.5 the following day (you cannot speed up the original weight descent plan)

GROWTH ALLOWANCE

1. The growth allowance may not be used to achieve a lower certified minimum wrestling weight for an athlete.
2. Georgia Independent School Association Weight Management Program grants a two (2) pound growth allowance on **December 31, 2019**. An additional one (1) pound growth allowance will be granted on **January 25, 2020**.

COACHES' REQUIREMENTS

Posting Information to the OPC

1. Instructions for using the Optimal Performance Calculator (OPC) may be found by clicking on the “?” in the blue toolbar of the TrackWrestling website. If you cannot find the topic you are searching for under “FAQ’s”, submit a ticket under the “Contact Us” tab or call TrackWrestling at the number listed. Refer to Attachment #2 at the end of this booklet for other user directions.
2. School and wrestler information required to be posted on TrackWrestling:
 - a. Team roster: coaches may add or delete wrestlers as needed.
 - b. Team competition schedule: Each weigh-in form is tied to an event on the team schedule. Any additions/changes to the schedule after 12/31 must be approved, in writing, by the GISA.
 - c. All weigh-ins (if a wrestler steps on the scale, the actual weight must be recorded on the form by the official and entered into the OPC by the coach).

Note: The “Alpha Master Report” provides specific information for each wrestler: the alpha date weight, % body fat, minimum wrestling weight, minimum weight class and the first date each wrestler will be allowed to wrestle at the minimum weight class (if on descent plan). The “Weigh-In Report” provides information day by day for the minimum weight and the weight class allowed.

Pre-Match Weigh-In Protocol

1. Once the team schedule has been completed, a “Weigh-In Report” form (Attachment 3) may be created by following the instructions in the appendix or under the FAQ section on TrackWrestling.
2. The “Weigh-in Report” cannot be printed more than 3 days prior to the event. This report shows the eligible weight classes of each wrestler (if they are on target for that date) and it also contains an area where the wrestlers’ actual weight is to be written.
3. The OPC will not allow an individual’s name to be added to a Weigh-In Form, nor can you print the form until all his/her previous weigh-ins are entered and committed.

Match Protocol

1. Coaches are required to provide copies of the “Weigh-In Report” (Form 3) to the head official or the authorized person responsible for conducting weigh-ins. This form shall list all wrestlers who are scheduled to compete. After weigh-ins and skin checks are completed, the host coach will make copies of the signed Weigh-in Report and provide one to each head coach in attendance. The head official will keep the originals.
2. If an athlete steps on the scale, his/her actual weight must be posted on the TrackWrestling site.
3. Only the initial weigh-in for multi-day events has to be entered into the database.
4. Weigh-in forms are to be entered in consecutive date order and must be posted within 48 hours of an event or before the next scheduled competition (whichever comes first).

5. Schools will be locked out and may not be able to place athletes on future rosters until previous weigh-ins are entered and committed.

Example:

A school has competitions scheduled for December 3rd and December 5th. The “Pre-Match Weigh-in” form must be created, printed and taken to the competition on December 3rd. Post-match, the wrestler’s actual weigh-in weights from December 3rd must be entered and committed before the weigh-in form for the December 5th match can be created.

6. Once weights are entered and committed, only the GISA can make/authorize changes.
7. For tournaments, the documents must be submitted to the tournament director prior to the start of weigh-in.
8. Schools violating “Match Protocols” are to be reported to the GISA (912-536-4650). Penalties and/or fines may be assessed for these violations.

**WRESTLING WEIGHT MANAGEMENT PROGRAM
PHYSICIAN CLEARANCE**

WRESTLER AT/BELOW 7% or 12% BODY FAT

TO THE PHYSICIAN:

The Georgia High School Association (GISA) has instituted a Wrestling Weight Management Program to encourage healthy weight control practices by interscholastic wrestlers. As part of this program, a minimum weight is established for each wrestler prior to their competitive season. Each wrestler's body fat and lean body mass is measured by a body composition analysis. The standard error for this method is + / - 2% for lower weights and + / - 4% for higher weights. A minimum weight is then calculated at 7% body fat for males and 12% for females.

The pre-season assessment performed on your patient indicated he/she is currently at or below 7% body fat (males); 12% (females) and the athlete is requesting that he/she be allowed to wrestle. Most adolescents require 5-7% body fat (males) or 10-12% body fat (females) to achieve optimal growth and development. However, there are some adolescents who are naturally lean and develop normally with a lower percentage of body fat. Because this athlete has less than the minimum body fat, GISA guidelines require evaluation by and permission from the athlete's personal physician for this athlete to compete.

Please evaluate your patient for normal growth and development, paying particular attention to weight fluctuations and his/her growth curve. Based on the patient's history and your examination, determine if his/her present weight is compatible with normal growth, development and good health and indicate your assessment and recommendations on the next page.

Thank you,

Georgia Independent School Association

WRESTLING WEIGHT MANAGEMENT PROGRAM

PHYSICIAN CLEARANCE WRESTLER
AT/BELOW 7% or 12% BODY FAT

Any male wrestler whose body fat percentage at the time of their initial assessment is at or below 7% must obtain written clearance from a licensed physician (MD or DO) stating that the athlete is naturally at this low body fat level. In the case of a female wrestler, written physician clearance must be obtained for athletes who are at or below 12% body fat. This physician clearance is for one season duration and expires on March 1st of each school year.

Each wrestler's body fat and lean body mass is measured by a body composition analysis (the standard error for this method is + / - 2% for lower weights and + / - 4% for higher weights). A minimum weight is then calculated at 7% body fat for males and 12% for females.

Per GISA policy, a standard correction factor of minus 2% is then deducted prior to the final calculation of the athletes' "lowest allowable weight".

Your patient is requesting that he/she be allowed to wrestle one (1) weight class lower than determined by the initial assessment. GISA guidelines require evaluation by and permission from the athlete's personal physician for this appeal to be granted.

Please evaluate your patient for normal growth and development, paying particular attention to weight fluctuations and his/her growth curve. Based on the patient's history and your examination, determine if his/her present weight is compatible with normal growth, development and good health and indicate your assessment and recommendation on the next page.

Thank you,

Hydration Tip Sheet

Athletes need to be properly hydrated in order to get the best results when they do their body composition testing. Coaches, athletes and parents need to understand how the testing works and what the results will mean as the season gets underway. Dehydrating prior to testing will cause the athlete to fail the urine specific gravity test and will result in additional costs. Following these tips will help wrestlers pass the hydration test and give the most favorable body composition assessment results.

In the days Leading Up to Testing

- ✓ Continue drinking fluids throughout the day and drink an additional 16-24 ounces of water for each pound you may have lost during a sport practice.
- ✓ Avoid caffeine drinks such as iced tea, caffeinated soft drinks, energy drinks and coffee.
- ✓ Urine should be clear when athlete is adequately hydrated.
- ✓ Eat smaller, more frequent meals; limit high fat foods and increase fiber (whole grains) intake to help eliminate waste from the body.
- ✓ Avoid salty foods (potato chips, pretzels, pizza, tuna, crackers, etc.)
- ✓ Stop taking vitamins and other supplements unless prescribed by your doctor as they may cause your urine to be darker than normal.

One day before test:

- ✓ Continue drinking plenty of water; you should be urinating on a frequent basis. Urine should be nearly clear if you are fully hydrated.
- ✓ Avoid caffeine drinks such as iced tea, caffeinated soft drinks, energy drinks and coffee.
- ✓ Eat smaller, but more frequent meals; avoid high fat foods, salty foods and chocolate; continue eating fibrous foods to eliminate waste from the body.
- ✓ Continue to avoid vitamins and other supplements unless prescribed by your doctor.

The day of the assessment:

- ✓ No caffeine or diuretics in past 12 hours.
- ✓ No food or drink within two hours of the test.
- ✓ No exercise before the assessment.
- ✓ No alcohol within past 24 hours.
- ✓ If afternoon testing; eat a small, light lunch (fruit, grains, etc.) at least two hours before the test.
- ✓ Continue to drink water.
- ✓ DO NOT drink salty drinks such as sodas, Gatorade or PowerAde, etc... which will cause you to retain fluids.
- ✓ Do not take any vitamin or mineral supplements before testing.
- ✓ Urinate as frequently as possible throughout the day until one-two hours prior to test time.
- ✓ Use the bathroom (bowel movement) before the test.
- ✓ Please be ready to urinate when you arrive.

It is suggested that testing later in the day (late afternoon is the ideal time) because it reduces the likelihood of an athlete showing up moderately dehydrated.

Conditions that might cause skewed results or give an “ERROR” reading

- A very full bladder
- Thick calluses on heels or soles of feet (Tanita says 1 out of 400 people tested)
- Unclean footpads on the machine
- Pre-menstruation phase
